Creative, Versatile Designer: Experienced in email, web and print design.

Skilled User of Technology: Proficient with many programs. Extremely adept at working with and trouble-shooting computers and servers and debugging code.

Detail-oriented Multi-tasker: Able to balance competing priorities, tight deadlines and customer needs in a fast-paced environment.

Effective Communicator: Excellent writing, public speaking and customer service skills.

Trainable: Able to learn and adapt to a new environment rapidly.

[EXPERIENCE]

{Web Developer/Designer}

Webize Interactive Media
Indianapolis, IN

May 2008 - Present

- Developing web sites, learning courses and interactive web applications using Action Script 2.0 & 3.0, Flash, HTML, and CSS.
- Creating assets for web projects using Adobe Illustrator and Adobe Photoshop.
- Interacting with project managers, other team members and clients from start to finish on both large scale and small scale projects. The majority of my work load has been learning courses developed in flash using timeline animation and Action Script.
- Troubleshooting, proof reading, editing and debugging content for projects as needed.
- Using Adobe After Effects to key out and edit video from a green screen that is converted to flash video to be integrated in learning courses and other sites.
- Updating and creating tables using Microsoft SQL Server databases.
- Working closely with .net developers to insure proper implementation of flash projects into sites.
- Creating and designing html emails to be used during marketing campaigns for clients.

{Web Developer/Designer}

Cassis
Indianapolis, IN

October 2007 – May 2008

- Developed web sites and web applications using HTML, CSS, PHP, cakePHP framework and Flash.
- Managed web department in daily interactions with small and large scale projects.
- Created and integrated email marketing campaigns for our client base.
- Created assets for web projects using Adobe Illustrator and Adobe Photoshop.
- Interacted with client base from start to finish on projects
- Troubleshot existing web sites and applications, i.e. proactively proofed, edited and debugged content for hosted clients.
- Aided in troubleshooting and migrating servers.
- Made use of Subversion application.

{Flash Developer}

Burger King (Contract Through Adecco)
Indianapolis, IN

July 2007 – October 2007

- Developed Flash tutorial animations that teach sandwich construction to employees.
- Used Adobe Illustrator to create assets for the Flash animations.

{Freelance Web Design}

William R. Richards, P.C.

March 2007 – July 2007

Indianapolis, IN

- Redesigned two websites and updated another website for a law firm.
- Used Dreamweaver to layout and build first two web sites and HTML code to make updates to the third site.

{Intranet Editor and Marketing Communications Consultant}

Verizon Wireless (Contract Through Adecco)

March 2005 – June 2007

Indianapolis, IN

- Assisted in developing the design, distribution and creation of on-line communication for Midwest Area Marketing & Sales Ops.
- Modified website content for 3 intranet sites; proactively proofed and edited content using Reddot (Content Management System)
- Maintained intranets using HTML.
- Created and integrated email marketing campaigns. Using Photoshop to create designs for campaign, and wrote and edited featured copy for communications.
- Manipulated and cleaned up photos using Photoshop
- Integrated feedback from end user into the site to improve functionality and appearance of field communication, including online tools.
- Aided the creation and design of an online magazine using InDesign as the template base.

{Freelance Graphic Design}

Benchmark Realty Group

May 2005 – November 2005

Indianapolis, IN

- Collaborated with client to update the brand identity of the company.
- Designed from start to finish mailers for the company's clients.

{Web and Graphic Design Intern}

Sarah Bush Lincoln Hospital

August 2001 –August 2004

Mattoon, IL

- Interned for a hospital program that provided a health awareness campaign to area schools
- Responsible for designing and constructing a new website for the program.
